

A COMPREHENSIVE AND OPEN TO ALL CERTIFICATION PROGRAMME ON THE PM² METHODOLOGY.

PM² Alliance Certifications test the level of the candidates' understanding on the what, when, who, how and why of the PM² Methodology. The exam questions are balanced in terms of difficulty and distribution in the 4 pillars of PM² (Governance, Lifecycle, Processes, Artefacts), and the PM² Mindsets.

The PM² Alliance offers a comprehensive certification program for different levels of education and experience. The certifications are developed and offered with the highest quality standards.

The PM² Alliance's Certification exams are available through our online platform as fully proctored Computer Based Exam (CBE). The Alliance also offers for organisations and groups, supervised in-class Paper Based Exams (PBE) throughout our network of Affiliated Training Providers.

Member-driven and volunteer-led, the PM² Alliance is an international, not-for-profit organisation. Founded by PM² practitioners, the Alliance brings together individuals from institutions, companies and academia to inspire dialogue, share resources, and address the challenges facing the field, while promoting the wider adoption of the PM² Methodology.

PM² Alliance

**CERTIFICATION
PROGRAMME**

The PM² Alliance is committed to bringing the benefits of this certification to all EU Citizens for the purpose of the advancement of the PM² Methodology for the public good. The PM² Alliance Certification programme is available to all and has been designed to certify knowledge of the PM² methodology at various levels.

PM² Basic Certification

The PM² Basic Certification demonstrates basic understanding of key concepts of the PM² Methodology. The PM² Basic Certification is an entry level certification on basic concepts of the PM² Methodology designed for non Project Managers.

PM² Essentials Certification

The PM² Essentials Certification is designed to confirm candidates' understanding of key concepts of the PM² Methodology. The certification exam tests the level of the candidates' understanding on the what, when, who and how of the PM² Methodology and it is structured based on the four pillars of PM² and the PM² Mindsets. The exam questions are balanced in the 5 areas of Governance, Lifecycle, Processes, Artefacts and Mindsets.

PM² Advanced Certification

The PM² Advanced Certification is designed to confirm a candidate's understanding of both basic and advanced concepts of the PM² Methodology, both at an individual concept level, but also at the level where interrelations and interdependencies exist. The exam questions span over the 5 areas of Governance, Lifecycle, Processes, Artefacts and Mindsets as well as advanced management topics such as Quality Management, Risk Management, Deliverables Acceptance Transition Management and Business Implementation Management. Candidates who achieve the certification prove a level of understanding of the methodology required to lead a PM² project effectively (or support a PM² project from an expert's position).

PM² Agile Certification

The PM² Agile Certification is designed to confirm a candidate's understanding of the application of Agile principles, Tools and Techniques in PM² Projects. The Agile PM² Certification exam focuses on the Agile aspects of the

PM² Methodology, covering the what, when, who, how and why of the Agile extension of the PM² Methodology. The exam questions span the areas of Agile PM² Governance, Lifecycle, Agile Values and Principles, Agile Tools & Techniques. Candidates who achieve the certification prove a level of understanding of the methodology required to lead a PM² project with Agile principles effectively integrated within the management approach.

PM² Alliance Trainer Certification

The PM² Trainer Certification tests the master-level knowledge of a trainer on all aspects of the PM² Methodology. It also tests their ability to design high-quality PM² Training Programmes, to effectively explain basic and advanced aspects of the methodology, and to guide certification candidates through the certification preparation process.
